

# Invision Technologies

310 Over Ct.

Albany GA, 31721

[www.invtech.com](http://www.invtech.com)

---

**Invision Technologies** provides comprehensive technology installation and support services to small and mid-sized businesses so that our clients can focus on running and growing their businesses. Services offered include IT services and products, telephone systems and service, and security services such as burglar, fire alarm, and access control systems. Our team of 30 professionals is based in Albany, GA and while we work extremely hard, it's important to us that each staff member feels like part of our family and shares in each other's successes.

We are seeking an individual for a Low-Voltage Support Professional position to install, troubleshoot, repair, and configure access control, security alarms, fire alarm and network camera surveillance systems. This individual will also be installing, testing, and troubleshooting structured copper and fiber networks in preparation for data networking.

## **Compensation**

- Paid by the hour. Rate depends on experience and skill set
- Mobile phone service provided
- Medical, vision, dental, and disability insurance available
- 401k
- Vacation and holiday pay

## **Job duties**

- Perform low-voltage system installations at client facilities
- Troubleshoot and repair low-voltage system issues
- Install hardware components such as racks, patch panels, switches, cameras, fire alarms, security alarms, and access control systems.
- Install, test, and certify low-voltage Cat 6 cabling as well as fiber-optic cabling.
- This is mostly a field service position although some work will be performed in the office

## **Job Qualifications**

- Training in low-voltage technologies
- Experience with the above named systems
- Ability to meet new people with a customer service orientation
- Certifications desired but not required.

**Hours and Location:** This is a full-time position covering an area within a 90 mile radius of Albany, GA. You will work from the company office when sending email, setting up appointments by phone, and participating in internal meetings. You will work in the field when installing and repairing systems. Company transportation will be provided during work hours.

**Training:** You will receive significant training opportunities on the products you will support. The company will pay for training materials and certification tests.

**Applying:** Please send resume to [jobs@invtech.com](mailto:jobs@invtech.com).
