

Invision Technologies

310 Over Ct.

Albany GA, 31721

www.invtech.com

Invision Technologies provides comprehensive technology installation and support services to small and mid-sized businesses so that our clients can focus on running and growing their businesses. Services offered include IT services and products, telephone systems and service, and security services such as burglar, fire alarm, and access control systems. Our team of 30 professionals is based in Albany, GA and while we work extremely hard, it's important to us that each staff member feels like part of our family and shares in each other's successes.

We are seeking an individual for a Telephony Support Professional position to install, configure, troubleshoot, and repair telephone systems. This will include traditional digital systems as well as VoIP systems. The position also includes the configuration of network routers and switches as well as some installation of low-voltage cabling.

Compensation

- Paid by the hour. Rate depends on experience and skill set
- Mobile phone service provided
- Medical, vision, dental, and disability insurance available
- 401k
- Vacation and holiday pay

Job duties

- Perform telephone system installations at client facilities
- Troubleshoot and repair telephone system issues
- Install basic network components such as routers and switches
- Install, test, and certify low-voltage Cat 6 cabling
- This is mostly a field service position although some work will be performed in home office

Job Qualifications

- Training in low-voltage and telephony technologies
- TCP/IP experience a plus as our company sells mostly VoIP systems
- Training in basic network devices
- Ability to meet new people with a customer service orientation
- Certifications desired but not required.

Hours and Location: This is a full-time position covering an area within a 90 mile radius of Albany, GA. You will work from the company office when sending email, setting up appointments by phone and participating in internal meetings. You will work in the field when installing and repairing systems. Company transportation will be provided during work hours.

Training: You will receive significant training opportunities on the products you will support. The company will pay for training materials and certification tests.

Applying: Please send resume to jobs@invtech.com.
